NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
June 30, 2017 and 2016

NOTE 1 - BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements of Capital Financial Holdings, Inc., a North Dakota corporation, and its subsidiaries Capital Financial Services, Inc. ("CFS") and Capital Natural Resources, Inc. ("CNR") (collectively, the "Company"), included herein have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the footnotes thereto contained in the Annual Report on Form 10-K for the year ended December 31, 2016, of Capital Financial Holdings, Inc., as filed with the SEC. The condensed consolidated balance sheet at December 31, 2016, contained herein, was derived from audited financial statements, but does not include all disclosures included in the Form 10-K and applicable under accounting principles generally accepted in the United States of America. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America, but not required for interim reporting purposes, have been condensed or omitted.

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments (which are of a normal, recurring nature) necessary for a fair presentation of the financial statements. The results of operations for the six months ended June 30, 2017, are not necessarily indicative of operating results for the entire year.

Oil and Gas Properties

CNR follows the full cost method of accounting for crude oil and natural gas operations whereby all costs related to the exploration and development of crude oil and natural gas properties are capitalized into a single cost center ("full cost pool"). Such costs include land acquisition costs, geological and geophysical expenses, carrying charges on non-producing properties, costs of drilling directly related to acquisition, and exploration activities.

Capitalized costs are depleted and amortized on the unit-of-production method based on the estimated gross proved reserves as determined by independent petroleum engineers. The costs of unproved properties are withheld from the depletion base until such time as they are either developed or abandoned. When proved reserves are assigned or the property is considered to be impaired, the cost of the property or the amount of the impairment is added to costs subject to depletion and full cost ceiling calculations. For the six months ended June 30, 2017, depletion expense was zero.

CNR held leasehold interests on acreage located in Gonzalas and Taylor County, Texas, Lincoln County, Colorado and Divide and Williams County, North Dakota. Proceeds from property sales will generally be credited to the full cost pool with no gain or loss recognized, unless such a sale would significantly alter the relationship between capitalized costs and the proved reserves attributable to these costs. In the first quarter of 2017, these assets were sold for \$66,200.

The Company assesses all items classified as unproved property on an annual basis, or if certain circumstances exist, more frequently, for possible impairment or reduction in value. In the first quarter of 2017, non-producing and unproved properties in Lincoln County, Colorado and Divide and Williams County, North Dakota held by the Company were disposed of in transfers deemed effective as of December 31, 2016 by assignment documents in accordance with established practice in the oil and gas industry.

Oil and Gas Revenue

The Company recognizes oil and gas revenue for only its ownership percentage of total production under the entitlement method. There was no imbalance as of June 30, 2017.

Asset Retirement Obligations

Asset retirement obligation is included in other noncurrent liabilities and relates to future costs associated with the plugging and abandonment of crude oil and natural gas wells, removal of equipment and facilities from leased acreage and returning the land to its original condition. Estimates are based on estimated remaining lives of those wells based on reserve estimates, external estimates to plug and abandon the wells in the future, inflation, credit adjusted discount rates and federal and state regulatory requirements. The liability is accreted to its present value each period, and the capitalized cost is depreciated over

the useful life of the related asset. As of June 30, 2017, asset retirement obligations were zero and for the six months ended June 30, 2017 accretion expense was zero.

As of December 31, 2016, the natural resource segment met the definition of discontinued operations.

NOTE 2 – ACCOUNTING PRONOUNCEMENTS ISSUED BUT NOT YET EFFECTIVE

A summary of our significant accounting policies is included in Note 1 of our 2016 Form 10-K filed on March 30, 2017.

ASU 2014-15 —*Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. The amendment requires that in connection with preparing financial statements for each annual and interim reporting period, an entity's management should evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued. The Company is currently evaluating the impact of its pending adoption of ASU 2014-15.

ASU 2016-02 – *Leases (Topic 842)*: - The amendments in this update supersede nearly all existing lease guidance under GAAP. The amendment requires the recognition of lease assets and lease liabilities on the balance sheet by lessees for those leases currently classified as operating leases. Qualitative and quantitative disclosures are required. This update is effective for fiscal years beginning after December 15, 2018 including interim periods within those fiscal years. Early application is permitted. Entities are required to apply the amendments at the beginning of the earliest period presented using a modified retrospective approach. The Company is currently evaluating the impact of its pending adoption of ASU 2016-02.

NOTE 3 – BUSINESS VENTURES

On June 9, 2014, the Company launched a new wholly-owned operating subsidiary, Capital Natural Resources, Inc., by acquiring 1,000,000 shares, .001 par value common stock of Capital Natural Resources, Inc. for the amount of \$100,000. Capital Natural Resources, Inc. will seek opportunities related to natural resources in the United States, including petroleum, natural gas and/or other minerals, water resources and land.

On April 1, 2015, CNR obtained a non-operating working interest in an oil and gas property consisting of three oil and gas leases in Taylor County, Texas for a purchase price of \$90,000 paid in cash.

On December 1, 2015, CNR purchased a non-operating working interest in the Kifer Rozella 1, producing oil well, located in the County of Gonzales, state of Texas. The purchase price of \$100,000 for CNR's interest was paid by \$50,000 by a promissory note and deed of trust carried by the Seller, Origin Production Company, Inc. Said promissory note has an annual interest rate of 10% per annum and is payable in monthly installment of approximately \$1,062 beginning January 1, 2016 with final maturity on December 1, 2020. On February 1, 2016, the Company paid off the promissory note in the amount of approximately \$50,847 bringing the balance of the note to zero. Total interest paid on the promissory note was approximately \$847.

On July 28, 2015, CNR acquired five year oil and gas leases located in Williams County, North Dakota and two tracts located in Divide County, North Dakota for a combined acquisition cost of \$7,676, including lease bonus and prepaid annual rentals. The oil and gas leases were obtained from the State of North Dakota Department of Trust Lands. The leases grant the right to conduct oil and gas operations and extract oil and gas from the property with payment of royalty to the lessor of 3/16 of oil and gas produced. The leases were to expire August 3, 2020 unless held by production, meaning oil and gas is being produced from the properties.

On August 20, 2015, CNR acquired a five year oil and gas lease located in Lincoln County, Colorado at an initial acquisition cost of \$1,652 including the first annual rental payment of \$1,600. The oil and gas lease was obtained from the Colorado State Board of Land Commissioners. The lease grants the right to conduct oil and gas operations and extract oil and gas from the property with payment of royalty to the lessor of 1/6 of oil and gas produced. The lease was to expire August 20, 2020 unless held by production, meaning oil and gas is being produced from the property.

The oil and gas leases in North Dakota and Colorado were non-producing properties and non-operating leases.

The purchase allocation for all four CNR oil and gas lease transactions was based on the estimated fair value of the assets acquired.

On May 19, 2015, CNR acquired interests in coal rights located in Kanawha County, West Virginia with 1,483,451 recoverable tons for a purchase price of \$1,275 paid in cash.

On June 11, 2015, CNR acquired mineral, water rights and surface interests in Hudspeth County, Texas for a purchase price of \$83,350 paid in cash.

In the first quarter of 2017, all of the natural resource assets described above were disposed of by CNR. As of December 31, 2016, the natural resource subsidiary, Capital Natural Resources, Inc., met the definition of discontinued operations.

NOTE 4 – DISCONTINUED OPERATIONS

On June 11, 2014, June 27, 2014, and July 22, 2014, Baron Energy, Inc., issued promissory notes receivable to Capital Natural Resources, Inc. (the “note holder”) in the amounts of \$85,000, \$40,000 and \$375,000 respectively. The three notes carry an interest rate of 15% per annum, payable monthly, and mature on June 12, 2016, June 28, 2016 and July 23, 2016 respectively. The Chairman of the Company has acted, and continues to act, as counsel to the Company while his affiliated law firm has acted and continues to act as counsel to Baron Energy, Inc. At maturity, the notes are convertible at the option of the note holder into specified non-operating minority working interests in Baron Energy, Inc.’s oil and gas operations in Frio County, Texas. As additional compensation to the note holder, at the maturity of the notes, regardless of whether the note holder elects to convert the principal of the notes to non-operating minority working interests, the note holder will be assigned specified non-operating minority working interests in Baron Energy, Inc.’s oil and gas operations in Frio County, Texas. The note holder also has the option to receive additional working interests if it extends the maturity dates of the notes. Interest income earned on the notes was \$82,642. On March 21, 2016, the Baron Notes were paid in full in the amount of \$500,000 together with accrued interest.

NOTE 6 – LINE OF CREDIT

On September 12, 2016, the Company signed renewal loan documents for the line of credit with American Bank Center in the amount of \$500,000. The line of credit has a variable interest rate of 1.509 percent above Wall Street Journal U.S. Prime Rate which was 4.25% as of June 30, 2017. The loan matures with principal due on September 12, 2017. As of June 30, 2017, the Company had zero outstanding and zero interest expense against its current line of credit. There are no financial covenants associated with the line of credit.

NOTE 7 - STOCK WARRANTS, STOCK SPLITS, AND STOCK OPTIONS

The Company measures and records compensation expense for all share-based payment awards made to employees and directors, including employee stock options, based on estimated fair values. There were no compensation costs or deferred tax benefits recognized for stock-based compensation awards for the six months ended June 30, 2017 and 2016. Changes are due to the stock buyback and reverse stock split.

Option activity for the twelve months ended December 31, 2016 and the six months ended June 30, 2017 was as follows:

	<u>Number of Options</u>	<u>Weighted Average Exercise Price per Share</u>	<u>Weighted Average Grant Date Fair Value</u>	<u>Aggregate Intrinsic Value</u>

Exercisable options totaled 168 at December 31, 2016 and totaled 167 at June 30, 2017.

NOTE 8 – INCOME TAXES

Deferred taxes arise because of different tax treatment between financial statement accounting and tax accounting, known as “temporary differences.” The Company records the tax effect of these temporary differences as “deferred tax assets” (generally items that can be used as a tax deduction or credit in future periods) and “deferred tax liabilities” (generally

items for which the Company has received a tax deduction and has not yet been recorded in the consolidated statement of operations).

Management reviews and adjusts those estimates annually based upon the most current information available. However, because the recoverability of deferred taxes is directly dependent upon the future operating results of the Company, actual recoverability of deferred taxes may differ materially from management's estimates.

Due to stock options forfeited, the deferred tax assets associated with stock compensation valued under the Black Scholes model were reduced. As of June 30, 2017, an accumulated amount of approximately \$434,610 has been recorded as tax expense since the beginning of stock options being forfeited. There are no additional stock options subject to forfeiture.

The effective tax rates for the six months ended June 30, 2017 were different from the statutory rate primarily due to the reduction of the deferred tax assets related to stock compensation.

At June 30, 2017, the Company has approximately \$399,000 in federal net operation loss carry forward which begins to expire in 2036.

NOTE 9 - EARNINGS PER SHARE

Basic earnings per share are computed by dividing earnings available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflect per share amounts that would have resulted if dilutive potential common shares had been converted to common shares. The following reconciles amounts reported in the financial statements:

	<u>Three Months Ended June 30, 2017</u>			<u>Three Months Ended June 30, 2016</u>

Options and warrants to purchase 377 common shares at exercise prices between \$3,500 and \$14,300 were outstanding at June 30, 2017, but were not included in the computation of diluted earnings per share for the quarter ending June 30, 2017 and June 30, 2016, because their effect was anti-dilutive.

NOTE 10 – RULE 4110 (c)(1)

The Company operates under the provision of FINRA Rule 4410 (c)(1) and, accordingly, the member is restricted from withdrawing equity capital for a period of one year from the date such equity capital is contributed, unless otherwise permitted by FINRA in writing. Subject to the requirements of paragraph (c)(2) of this Rule, this paragraph shall not preclude a member from withdrawing profits earned. On December 28, 2016, the board of the holding company of Capital Financial Services, Inc. approved capital contribution in the amount of \$65,000 to be transferred to the Company.

NOTE 11 – REGULATORY MATTERS

The broker dealer (“BD”) segment of Capital Financial Services, Inc. is subject to periodic examinations by its regulators, the Financial Industry Regulatory Authority (“FINRA”) and the Securities Exchange Commission (“SEC”).

During 2016, the SEC conducted a routine examination of the CFS BD. At the conclusion of its examination, the SEC issued an Examination Report with certain findings, asking the Company’s regulated entity to improve its anti-money laundering program, record additional information on the Company’s transaction blotters, and record transactions on the Company’s transaction blotters that are performed at other companies. On November 28, 2016 the broker dealer made its latest response to the routine examination report. The broker dealer is awaiting the closing letter from the SEC and continues to work with its legal counsel with respect to any potential remaining issues.

On May 19, 2017, FINRA, the regulatory authority for the Company’s subsidiary Capital Financial Services, Inc. (the broker dealer subsidiary) issued its post examination report for the FINRA examination of the broker dealer subsidiary which began in April 2017. In that report FINRA noted exceptions in its risk assessment of the firm in the following areas: 1) the need for an adequate anti-money laundering program to detect and report suspicious activity, 2) three instances of procedural inadequacy regarding due diligence or suitability with respect to REIT offerings participated in by the broker dealer subsidiary and 3) one instance of inadequate disclosure to a customer of variable annuity fees by a registered representative of the broker dealer subsidiary. These items remain as open items with FINRA pending final resolution of the examination. The broker dealer subsidiary is working to resolve the forgoing exception issues with FINRA as well as in its procedural processes.

NOTE 12 – BUILDING PURCHASE

On November 16, 2016, the Company closed on the acquisition of a commercial office building and associated property (the “Office Building”) located at 1821 Burdick Expressway West, Minot, North Dakota from Evanmark Enterprises, LLC, an entity unrelated to the Company. The contract purchase price for the Office Building was \$975,000, exclusive of closing costs of \$9,091, with all built-in fixtures and other furniture, fixtures and equipment in the building remaining with the property. The Company paid \$509,091 at closing toward the purchase price of the Office Building with the remaining \$475,000 of the purchase price financed by a commercial real estate loan from American Bank Center (“American Bank”) in the principal amount of \$675,000, \$475,000 of which is being applied to the purchase price of the Office Building and \$200,000 of which was utilized for renovations to the building. The loan will carry a fixed interest rate of 4.879% per annum for five (5) years with the rate to be adjusted at the end of the five (5) year period based on the Wall Street Journal Prime interest rate plus 1.759%. American Bank has a first priority mortgage on the Office Building. On April 7, 2017 the Company was notified by the City of Minot that the address on this property was changing from 1801 Burdick Expressway W to 1821 Burdick Expressway W. Effective in June 2017, the Company’s broker-dealer subsidiary began paying rent to the Company of \$8,500 per month on a month-to-month basis for a portion of the office facility owned by the Company. The broker-dealer utilizes approximately 5,817 square feet of office space for its operations out of a total of 6,188 square feet in the office facility. Rent Income and Rent Expense related to this Company/Subsidiary arrangement are eliminated in the consolidated financial statements.

NOTE 13 – SEGMENT REPORTING

The Company organizes its current business units into three reportable segments: broker dealer services, natural resources (discontinued operation as of December 31, 2016), and holding company. The broker-dealer services segment distributes securities and insurance products to retail investors through a network of registered representatives through its wholly-owned subsidiary, Capital Financial Services, Inc. (“CFS”), a Wisconsin corporation. The natural resources segment sought opportunities related to natural resources in the United States, including petroleum, natural gas and/or other minerals, water resources and land through its wholly-owned subsidiary, Capital Natural Resources, Inc. (“CNR”), a Colorado corporation. As of December 31, 2016, this operation met the definition of discontinued operation. The holding company encompasses cost associated with business development and acquisitions, dispositions of subsidiary entities and results of discontinued operations, dividend income and recognized gains or losses.

The Company's reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different technology and marketing strategies.

The historical results of Capital Natural Resources, Inc. have been reflected as discontinued operations.

NOTE 14 – LEGAL PROCEEDINGS

The Company operates in a legal and regulatory environment that exposes it to potentially significant litigation risks. Issuers of certain alternative products sold by the Company are in Bankruptcy or may have other financial difficulties. As a result of such alleged failings of alternative products and the uncertainty of client recovery from the various product issuers, the Company is subject to several legal and/or arbitration proceedings. These proceedings include customer suits, investments alleged to be unsuitable, and bankruptcies and other issues brought by claimants. The Company vigorously contests the allegations of the various proceedings and believes that there are multiple meritorious legal and fact based defenses in these matters. Such cases are subject to many uncertainties, and their outcome is often difficult to predict, including the impact on operations or on the financial statements, particularly in the earlier stages of a case. The Company makes provisions for cases brought against it when, in the opinion of management after seeking legal advice, it is probable that a liability exists, and the amount can be reasonably estimated. The current proceedings are subject to uncertainties and, as such, the Company is unable to estimate the possible loss or range of loss that may result from the outcome of these cases; however, results in these cases that are against the interests of the Company could have a severe negative impact on the financial position of the Company. As of June 30, 2017, the Company is a defendant in six on-going suits or arbitrations as discussed above. In April 2017, the Company issued payment of \$62,673 on one of the above matters as a deposit with the court pursuant to a court order and recorded a \$63,000 accrual for the matter as of December 31, 2016. On July 20, 2017, the court granted the plaintiff's additional motion for fees on fees in the same matter in the amount of approximately \$78,000. Although payment of fees is held in abeyance, pending final resolution of the action, the award of the \$78,000 in fees against the Company was booked as an accrued liability as of June 30, 2017. The Company will continue to defend the case.

On April 5, 2011, several broker-dealers and their principals/officers, including the Company and John Carlson, President and Chief Compliance Officer, filed a lawsuit in the Superior Court of California for Orange County against Mayer Hoffman McCann, P.C. ("Mayer Hoffman") captioned Signature Financial Group, Inc., et al, ("Signature") v. Mayer Hoffman McCann, P.C., et al. The lawsuit arose out of reviews of the financial statements of Medical Capital Holdings, Inc. ("Medical Capital") by Mayer Hoffman. In June 2009, Medical Capital was sued by the U.S. Securities and Exchange Commission ("SEC" or "Commission"), a finding was made that Medical Capital was conducting a "Ponzi scheme" and a receiver was appointed to liquidate Medical Capital. The plaintiffs in the Signature lawsuit are broker-dealers and principals of broker-dealers that sold Medical Capital investments to their clients. These plaintiffs sought to recover damages from Mayer Hoffman for the losses and expenses they incurred as a result of the Medical Capital financial deceptions and resulting expenses and losses to the plaintiffs. Specific claims asserted and relief requested included fraud-intentional misrepresentation of fact/concealment of fact; negligent misrepresentation; equitable indemnity and declaratory relief. On September 23, 2014, the Plaintiffs entered into a Confidential Settlement and Mutual Release Agreement (the "Settlement Agreement") with Mayer Hoffman and entities affiliated with Mayer Hoffman to settle the Plaintiffs' claims against Mayer Hoffman and all affiliated parties of Mayer Hoffman. The parties acknowledged that as between the Company and Mr. Carlson, one hundred percent (100%) of the settlement proceeds paid to them was for the alleged damage or harm to goodwill (and loss of goodwill). The settlement proceeds were received on December 4, 2014 and charged against goodwill carried on the consolidated financial statements of Capital Financial Holdings, Inc., the parent of the Company. In a matter related to the Settlement Agreement, on or about October 6, 2014, the Company filed a lawsuit seeking declaratory judgment against its former errors and omission insurance carrier - Arch Specialty Insurance Company ("Arch") - in the Circuit Court of Wisconsin for Milwaukee County (Capital Financial Services, Inc. v. Arch Specialty Insurance Company). On or about November 24, 2014, Arch filed counterclaims against the Company. The actions were for declaratory relief in connection with a dispute over whether Arch was entitled to any portion of the settlement proceeds that the Company received in exchange for dismissing the lawsuit with Mayer Hoffman. On approximately September 14, 2016 the Company and Arch agreed to settle the matter, on October 14, 2016 a Stipulation and Order for Dismissal was filed with the Court and on October 24, 2016 the Court entered an order dismissing the case, including all claims, counterclaims and third party claims with prejudice with no costs assessed to any party.

Liquidity and capital resources

The Company has historically relied upon sales of its equity securities and debt instruments, as well as bank loans, for liquidity and growth. Management believes that the Company's existing liquid assets, along with cash flow from operations, will provide the Company with sufficient resources to meet its ordinary operating expenses during the next twelve months. Significant, unforeseen or extraordinary expenses may require the Company to seek alternative financing sources, including common or preferred share issuance or additional debt financing.

In addition to the liabilities coming due in the next twelve months, management expects that the principal needs for cash may be broker recruitment, repurchase of shares of the Company's common stock, and debt service. Management also expects to realize increases in consultant expenses as well as increased compliance and legal costs with respect to its broker dealer subsidiary related to regulatory and litigation matters.

We use the definition of "independence" under the NASDAQ Rules, as applicable and as may be modified or supplemented from time to time and the interpretations thereunder, to determine if the members of our Board are independent. In making this determination, our Board considers, among other things, transactions and relationships between each director and his immediate family and us, including those reported in its Annual Report under the caption "Certain Relationships and Related Transactions." The purpose of this review is to determine whether any such relationships or transactions are material and, therefore, inconsistent with a determination that the directors are independent.
